REASONS FOR ALLOWANCE

Response to Arguments

Applicant's arguments, see page 4, filed February 23, 2006, with respect to 35 U.S.C 112 have been fully considered and are persuasive. The rejection of claims 1-5, 13 and 15-16 has been withdrawn.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or reasonably suggest providing a plurality of waveform signals representative of waveform signals generated in the body and carried by neurons in the body, said plurality of waveform signals being operative in the control of cardiac function, in combination with the other elements in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
